

UZAIF AHMED

ABOUT ME

PYTHON DEVELOPER

Experienced Python Engineer with over 4 years practice including 2 years in tech industry. Proficient in the domain of Python language, its frameworks (such as Django and PyQt) and both databases (SQL, firebase and local JSON). I have managed engagement with client meetings to explain updates. Currently I am managing projects with my supportive junior resource to run the projects in parallel. My professional aspiration is to be a Backend Server-side Engineer to deal with business logics along with Artificial Intelligence embedding.

ADDRESS

Flat 301, street 7/2 1-G,
Nazimabad no.1, Khi, PK.

04 META
Version Control

WORK EXPERIENCE

● Python Developer (Dec/2022 - Present)

Here at HACKERSPACE KARACHI, I am working as a Desktop App Developer + AI Engineer. Some projects I can share are:

- Label Recognition using Yolov5 (Deck Cards)
- Generative AI prompting Desktop App (Text-to-Image)
- Shortcuts keymapping Desktop App

● Trainee AI Engineer (Mar/2022 - Nov/2022)

At INAEQUO Solutions, I had great experience to practice my python skills with AI Technologies. Some interesting projects I experienced are:

- Entity Recognition using Spacy-NER (Resume parsing)
- Image Quality Enhancement using LapSRN (NFT Images)
- Fields Detection using Yolov5 (ID Card) + OCR of fields using EasyOCR

EDUCATIONAL HISTORY

● BS Information Technology (2018 - 2021)

Subjects to justify this post:

- Data Structure & Algorithms
- Software Engineering
- Database Systems
- Web Systems & Technologies

● Intermediate/H.S.C (2016 - 2017)

Pre-Board Position Awards:

- XII - 2nd position (2017)
- XI - 2nd position (2016)

● Matric/S.S.C (2014 - 2015)

Sports, Punctuality and Discipline Certificates
Chosen for co-Captain & Captain of Monitors
